

Special Tax Notice Regarding Retirement Plan Payments

YOUR ROLLOVER OPTIONS

You are receiving this notice because all or a portion of a payment you are receiving from your employer-sponsored retirement plan (the “Plan”) is eligible to be rolled over to either an IRA or an employer plan, or if your payment is from a designated Roth account to a Roth IRA or designated Roth account in an employer plan. This notice is intended to help you decide whether to do such a rollover.

This notice describes the rollover rules that apply to payments from the Plan. To the extent that the rules differ based on whether the payment is from a Designated Roth Account or from an account that is Not a Designated Roth Account, those differences will be identified in each section of this notice.

Rules that apply to most payments from a plan are described in the “General Information About Rollovers” section. Special rules that only apply in certain circumstances are described in the “Special Rules and Options” section.

GENERAL INFORMATION ABOUT ROLLOVERS

How can rollover affect my taxes?

Not a Designated Roth Account

You will be taxed on a payment from the Plan if you do not roll it over. If you are under age 59½ and do not do a rollover, you will also have to pay a 10% additional income tax on early distributions (generally, distributions made before age 59½), unless an exception applies. However, if you do a rollover, you will not have to pay tax until you receive payments later and the 10% additional income tax will not apply if those payments are made after you are age 59½ (or if an exception to the 10% additional income tax applies).

Designated Roth Account

After-tax contributions included in a payment from a designated Roth account are not taxed, but earnings might be taxed. The tax treatment of earnings included in the payment depends on whether the payment is a qualified distribution. If a payment is only part of your designated Roth account, the payment will include an allocable portion of the earnings in your designated Roth account.

If the payment from the Plan is not a qualified distribution and you do not do a rollover to a Roth IRA or a designated Roth account in an employer plan, you will be taxed on the portion of the payment that is earnings. If you are under age 59½, a 10% additional income tax on early distributions (generally, distributions made before age 59½) will also apply to the earnings (unless an exception applies). However, if you do a rollover, you will not have to pay taxes currently on the earnings and you will not have to pay taxes later on payments that are qualified distributions.

If the payment from the Plan is a qualified distribution, you will not be taxed on any part of the payment even if you do not do a rollover. If you do a rollover, you will not be taxed on the amount you roll over and any earnings on the amount you roll over will not be taxed if paid later in a qualified distribution.

A qualified distribution from a designated Roth account in the Plan is a payment made after you are age 59½ (or after your death or disability) and after you have had a designated Roth account in the Plan for at least 5 years. In applying the 5-year rule, you count from January 1 of the year your first contribution was made to the designated Roth account. However, if you did a direct rollover to a designated Roth account in the Plan from a designated Roth account in another employer plan, your participation will count from January 1 of the year your first contribution was made to the designated Roth account in the Plan or, if earlier, to the designated Roth account in the other employer plan.

EnvoyFinancial.com · (888)879-1376 · 5333 N Union Blvd, Ste 200, Colorado Springs, CO 80918

What types of retirement accounts and plans may accept my rollover?

Not a designated Roth Account

You may roll over the payment to either an IRA (an individual retirement account or individual retirement annuity) or an employer plan (a tax-qualified plan, section 403(b) plan, or governmental section 457(b) plan) that will accept the rollover. The rules of the IRA or employer plan that holds the rollover will determine your investment options, fees, and rights to payment from the IRA or employer plan (for example, IRAs are not subject to spousal consent rules, and IRAs may not provide loans). Further, the amount rolled over will become subject to the tax rules that apply to the IRA or employer plan.

Designated Roth Account:

You may roll over the payment to either a Roth IRA (a Roth individual retirement account or Roth individual retirement annuity) or a designated Roth account in an employer plan (a tax-qualified plan, section 403(b) plan, or governmental section 457 plan) that will accept the rollover. The rules of the Roth IRA or employer plan that holds the rollover will determine your investment options, fees, and rights to payment from the Roth IRA or employer plan (for example, Roth IRAs are not subject to spousal consent rules, and Roth IRAs may not provide loans). Further, the amount rolled over will become subject to the tax rules that apply to the Roth IRA or the designated Roth account in the employer plan. In general, these tax rules are similar to those described elsewhere in this notice, but differences include:

- If you do a rollover to a Roth IRA, all of your Roth IRAs will be considered for purposes of determining whether you have satisfied the 5-year rule (counting from January 1 of the year for which your first contribution was made to any of your Roth IRAs).
- If you do a rollover to a Roth IRA, you will not be required to take a distribution from the Roth IRA during your lifetime and you must keep track of the aggregate amount of the after-tax contributions in all of your Roth IRAs (in order to determine your taxable income for later Roth IRA payments that are not qualified distributions).
- Eligible rollover distributions from a Roth IRA can only be rolled over to another Roth IRA.

How do I do a rollover?

There are two ways to do a rollover. You can do either a direct rollover or a 60-day rollover.

If *you do a direct rollover*, the Plan will make the payment directly to your IRA or an employer plan. You should contact the IRA sponsor or the administrator of the employer plan for information on how to do a direct rollover.

If *you do not do a direct rollover*, you may still do a rollover by making a deposit into an IRA or eligible employer plan that will accept it. You will have 60 days after you receive the payment to make the deposit.

Not a designated Roth Account

You may still do a rollover by making a deposit into an IRA or eligible employer plan that will accept it. Generally, you will have 60 days after you receive the payment to make the deposit. If you do not do a direct rollover, the Plan is required to withhold 20% of the taxable payment for federal income taxes (up to the amount of cash and property received other than employer stock). This means that, in order to roll over the entire payment in a 60-day rollover, you must use other funds to make up for the 20% withheld. If you do not roll over the entire amount of the payment, the portion not rolled over will be taxed and will be subject to the 10% additional income tax on early distributions if you are under age 59½ (unless an exception applies).

EnvoyFinancial.com · (888)879-1376 · 5333 N Union Blvd, Ste 200, Colorado Springs, CO 80918

Designated Roth Account

You may roll over the payment to either a Roth IRA (a Roth individual retirement account or Roth individual retirement annuity) or a designated Roth account in an employer plan (a tax-qualified plan, section 403(b) plan, or governmental section 457 plan) that will accept the rollover. The rules of the Roth IRA or employer plan that holds the rollover will determine your investment options, fees, and rights to payment from the Roth IRA or employer plan (for example, Roth IRAs are not subject to spousal consent rules, and Roth IRAs may not provide loans). Further, the amount rolled over will become subject to the tax rules that apply to the Roth IRA or the designated Roth account in the employer plan. In general, these tax rules are similar to those described elsewhere in this notice, but differences include:

- If you do a rollover to a Roth IRA, all of your Roth IRAs will be considered for purposes of determining whether you have satisfied the 5-year rule (counting from January 1 of the year for which your first contribution was made to any of your Roth IRAs).
- If you do a rollover to a Roth IRA, you will not be required to take a distribution from the Roth IRA during your lifetime and you must keep track of the aggregate amount of the after-tax contributions in all of your Roth IRAs (in order to determine your taxable income for later Roth IRA payments that are not qualified distributions).
- Eligible rollover distributions from a Roth IRA can only be rolled over to another Roth IRA.

How much may I roll over?

If you wish to do a rollover, you may roll over all or part of the amount eligible for rollover. Any payment from the Plan is eligible for rollover, except:

- Certain payments spread over a period of at least 10 years or over your life or life expectancy (or the joint lives or joint life expectancies of you and your beneficiary)
- Required minimum distributions
- Hardship distributions
- Payments of employee stock ownership plan (ESOP) dividends
- Corrective distributions of contributions that exceed tax law limitations
- Loans treated as deemed distributions (for example, loans in default due to missed payments before your employment ends)
- Cost of life insurance paid by the Plan
- Payments of certain automatic enrollment contributions that you request to withdraw within 90 days of your first contribution
- Amounts treated as distributed because of a prohibited allocation of S corporation stock under an ESOP (also, there generally will be adverse tax consequences if you roll over a distribution of S corporation stock to an IRA)
- Distributions of certain premiums for health and accident insurance.

The Plan administrator or the payor can tell you what portion of a payment is eligible for rollover.

If I don't do a rollover, will I have to pay the 10% additional income tax on early distributions?

If you are under age 59 ½, you will have to pay the 10% additional income tax penalty on early distributions for any payment from the Plan (including amounts withheld for income tax) that you do not roll over, unless one of the exceptions listed below applies. This tax is in addition to the regular income tax on the payment not rolled over.

The 10% additional income tax penalty does not apply to the following payments from the Plan:

- Payments made after you separate from service if you will be at least age 55 in the year of the separation
- Payments that start after you separate from service if paid at least annually in equal or close to equal amounts over your life or life expectancy (or the lives or joint life expectancy of you and your beneficiary)

EnvoyFinancial.com · (888)879-1376 · 5333 N Union Blvd, Ste 200, Colorado Springs, CO 80918

- Payments from a governmental defined benefit pension plan made after you separate from service if you are a public safety employee and you are at least age 50 in the year of the separation
- Payments made due to disability
- Payments after your death
- Payments of ESOP dividends
- Corrective distributions of contributions that exceed tax law limitations
- Cost of life insurance paid by the Plan
- Payments made directly to the government to satisfy a federal tax levy
- Payments made under a qualified domestic relations order (QDRO)
- Payments up to the amount of your deductible medical expenses
- Certain payments made while you are on active duty if you were a member of a reserve component called to duty after September 11, 2001 for more than 179 days
- Payments of certain automatic enrollment contributions requested to be withdrawn within 90 days of the first contribution.

If I do a rollover to an IRA, will the 10% additional income tax apply to early distributions from the IRA?

If you receive a payment from an IRA (including a Roth IRA) when you are under age 59½, you will have to pay the 10% additional income tax on early distributions on the part of the distribution that you must include in income unless an exception applies. In general, the exceptions to the 10% additional income tax for early distributions from an IRA are the same as the exceptions listed above for early distributions from a plan. However, there are a few differences in payments from an IRA, including:

- The exception for payments made after you separate from service if you will be at least age 55 in the year of separation (or age 50 for qualified public safety employees) does not apply;
- The exception for qualified domestic relations orders (QDROs) does not apply (although a special rule applies under which, as part of a divorce or separation agreement, a tax-free transfer may be made directly to an IRA of a spouse or former spouse); and
- The exception for payments made at least annually in equal or close to equal amounts over a specified period applies without regard to whether you have had a separation from service.

Will I owe State income taxes?

This notice does not describe any State or local income tax rules (including withholding rules). Please consult your tax adviser or applicable state and local regulations for additional information.

EnvoyFinancial.com · (888)879-1376 · 5333 N Union Blvd, Ste 200, Colorado Springs, CO 80918

IMPORTANT INFORMATION

If you are a clergy member considering a distribution from your retirement plan, it's important to understand the potential impact on your eligibility for the housing allowance exclusion. The minister's housing allowance, as defined by IRS Publication 517, allows qualifying clergy to exclude a portion of their income from federal taxation, provided it is used for housing-related expenses.

Housing allowance benefits are generally available to clergy who receive distributions from qualified retirement plans, such as:

- 403(b) Plans: These are tax-deferred retirement plans available for employees of non-profit organizations, including churches and religious organizations.
- 401(k) Plans: If offered by certain organizations, clergy may also participate in these plans, which allow for tax-deferred contributions.
- Pension Plans: Defined benefit pension plans maintained by churches or religious organizations can also qualify for housing allowance treatment.

If you roll over your retirement plan distribution into an Individual Retirement Account (IRA) or another qualified retirement plan, the amount rolled over may still be treated as taxable income in the year of distribution if not appropriately handled. This could also affect your eligibility for the housing allowance exemption. To prevent unintended tax consequences, consult a tax professional familiar with the minister's housing allowance to ensure that any rollover does not inadvertently increase your taxable income.

SPECIAL RULES AND OPTIONS

If you miss the 60-day rollover deadline

Generally, the 60-day rollover deadline cannot be extended. However, the IRS has the limited authority to waive the deadline under certain extraordinary circumstances, such as when external events prevent you from completing the rollover by the 60-day rollover deadline. You must file a private letter ruling request with the IRS to apply for a waiver. Private letter ruling requests require the payment of a nonrefundable user fee. For more information, see IRS Publication 590-A, *Contributions to Individual Retirement Arrangements (IRAs)*.

If your payment includes employer stock that you do not roll over

Not a Designated Roth Account:

If you do not do a rollover, you can apply a special rule to payments of employer stock (or other employer securities) that are either attributable to after-tax contributions or paid in a lump sum after separation from service (or after age 59½, disability, or the participant's death). Under the special rule, the net unrealized appreciation on the stock will not be taxed when distributed from the Plan and will be taxed at capital gain rates when you sell the stock. Net unrealized appreciation is generally the increase in the value of employer stock after it was acquired by the Plan. If you do a rollover for a payment that includes employer stock (for example, by selling the stock and rolling over the proceeds within 60 days of the payment), the special rule relating to the distributed employer stock will not apply to any subsequent payments from the IRA or, generally, the Plan. The Plan administrator can tell you the amount of any net unrealized appreciation.

Designated Roth Account:

If you receive a payment that is not a qualified distribution and you do not roll it over, you can apply a special rule to payments of employer stock (or other employer securities) that are paid in a lump sum after separation from service (or after age 59½, disability, or the participant's death). Under the special rule, the net unrealized appreciation on the stock included in the earnings in the payment will not be taxed when distributed to you from the Plan and will be taxed at capital gain rates when you sell the stock. If you do a rollover to a Roth IRA for a nonqualified distribution that includes employer stock (for example, by selling the stock and rolling over the proceeds within 60 days of the distribution), you will not have any taxable income and the special rule relating to the distributed employer stock will not apply to any subsequent payments from the Roth IRA or, generally, the Plan. Net unrealized appreciation is generally the increase in the value of the employer stock after

EnvoyFinancial.com · (888)879-1376 · 5333 N Union Blvd, Ste 200, Colorado Springs, CO 80918

it was acquired by the Plan. The Plan administrator can tell you the amount of any net unrealized appreciation.

If you receive a payment that is a qualified distribution that includes employer stock and you do not roll it over, your basis in the stock (used to determine gain or loss when you later sell the stock) will equal the fair market value of the stock at the time of the payment from the Plan.

If your payments includes after-tax contributions (Not a Designated Roth Account)

After-tax contributions included in a payment are not taxed. If you receive a partial payment of your total benefit, an allocable portion of your after-tax contributions is included in the payment so you cannot take a payment of only after-tax contributions. However, if you have pre-1987 after-tax contributions maintained in a separate account, a special rule may apply to determine whether the after-tax contributions are included in the payment. In addition, special rules apply when you do a rollover, as described below.

You may roll over to an IRA a payment that includes after-tax contributions through either a direct rollover or a 60-day rollover. You must keep track of the aggregate amount of the after-tax contributions in all of your IRAs (in order to determine your taxable income for later payments from the IRAs). If you do a direct rollover of only a portion of the amount paid from the Plan and at the same time the rest is paid to you, the portion rolled over consists first of the amount that would be taxable if not rolled over. For example, assume you are receiving a distribution of \$12,000, of which \$2,000 is after-tax contributions. In this case, if you directly roll over \$10,000 to an IRA that is not a Roth IRA, no amount is taxable because the \$2,000 amount not rolled over is treated as being after-tax contributions. If you do a direct rollover of the entire amount paid from the Plan to two or more destinations at the same time, you can choose which destination receives the after-tax contributions.

Similarly, if you do a 60-day rollover to an IRA of only a portion of a payment made to you, the portion rolled over consists first of the amount that would be taxable if not rolled over. For example, assume you are receiving a distribution of \$12,000, of which \$2,000 is after-tax contributions, and no part of the distribution is directly rolled over. In this case, if you roll over \$10,000 to an IRA that is not a Roth IRA in a 60-day rollover, no amount is taxable because the \$2,000 amount not rolled over is treated as being after-tax contributions.

You may roll over to an employer plan all of a payment that includes after-tax contributions, but only through a direct rollover (and only if the receiving plan separately accounts for after-tax contributions and is not a governmental section 457(b) plan). You can do a 60-day rollover to an employer plan of part of a payment that includes after-tax contributions, but only up to the amount of the payment that would be taxable if not rolled over.

If you have an outstanding loan that is being offset

If you have an outstanding loan from the Plan, your Plan benefit may be offset by the amount of the loan, typically when your employment ends. The offset amount is treated as a distribution to you at the time of the offset. Generally, you may roll over all or any portion of the offset amount.

How long you have to complete the rollover depends on what kind of plan loan offset you have. If you have a qualified plan loan offset, you will have until your tax return due date (including extensions) for the tax year during which the offset occurs to complete your rollover. A qualified plan loan offset occurs when a plan loan in good standing is offset because your employer plan terminates, or because you sever from employment. If your plan loan offset occurs for any other reason (such as failure to make level repayments that results in a deemed distribution), then you have 60 days from the date the offset occurs to complete your rollover.

EnvoyFinancial.com · (888)879-1376 · 5333 N Union Blvd, Ste 200, Colorado Springs, CO 80918

Not a Designated Roth Account

Any offset amount that is not rolled over will be taxed (including the 10% additional income tax on early distributions, unless an exception applies). You may roll over offset amounts to an IRA or an employer plan (if the terms of the employer plan permit the plan to receive plan loan offset rollovers).

Designated Roth Account

If the distribution attributable to the offset is not a qualified distribution and you do not roll over the offset amount, you will be taxed on any earnings included in the distribution (including the 10% additional income tax on early distributions, unless an exception applies). You may roll over the earnings included in the loan offset to a Roth IRA or designated Roth account in an employer plan (if the terms of the employer plan permit the plan to receive plan loan offset rollovers). You may also roll over the full amount of the offset to a Roth IRA.

If you receive a nonqualified distribution and you were born on or before January 1, 1936

If you were born on or before January 1, 1936 and receive a lump sum distribution that is not a qualified Roth distribution and that you do not roll over, special rules for calculating the amount of the tax on the taxable portion of the payment might apply to you. For more information, see IRS Publication 575, *Pension and Annuity Income*.

If your payment is from a governmental section 457(b) plan

If the Plan is a governmental section 457(b) plan, the same rules described elsewhere in this notice generally apply, allowing you to roll over the payment to an IRA or an employer plan that accepts rollovers. One difference is that, if you do not do a rollover, you will not have to pay the 10% additional income tax on early distributions from the Plan even if you are under age 59½ (unless the payment is from a separate account holding rollover contributions that were made to the Plan from a tax-qualified plan, a section 403(b) plan, or an IRA). However, if you do a rollover to an IRA or to an employer plan that is not a governmental section 457(b) plan, a later distribution made before age 59½ will be subject to the 10% additional income tax on early distributions (unless an exception applies). Other differences include that you cannot do a rollover if the payment is due to an "unforeseeable emergency" and the special rules under "If your payment includes employer stock that you do not roll over" and "If you were born on or before January 1, 1936" do not apply.

If you are an eligible retired public safety officer and your payment is used to pay for health coverage or qualified long-term care insurance

If the Plan is a governmental plan, you retired as a public safety officer, and your retirement was by reason of disability or was after normal retirement age, you can exclude from your taxable income Plan payments or, in the case of a payment from a designated Roth account, nonqualified distributions, paid as premiums to an accident or health plan (or a qualified long-term care insurance contract) that your employer maintains for you, your spouse, or your dependents, up to a maximum of \$3,000 annually. For this purpose, a public safety officer is a law enforcement officer, firefighter, chaplain, or member of a rescue squad or ambulance crew.

EnvoyFinancial.com · (888)879-1376 · 5333 N Union Blvd, Ste 200, Colorado Springs, CO 80918

If you roll over your payment to a Roth IRA (Not a Designated Roth Account)

If you roll over a payment from the Plan to a Roth IRA, a special rule applies under which the amount of the payment rolled over (reduced by any after-tax amounts) will be taxed. In general, the 10% additional income tax on early distributions will not apply. However, if you take the amount rolled over out of the Roth IRA within the 5-year period that begins on January 1 of the year of the rollover, the 10% additional income tax will apply (unless an exception applies).

If you roll over the payment to a Roth IRA, later payments from the Roth IRA that are qualified distributions will not be taxed (including earnings after the rollover). A qualified distribution from a Roth IRA is a payment made after you are age 59½ (or after your death or disability, or as a qualified first-time homebuyer distribution of up to \$10,000) and after you have had a Roth IRA for at least 5 years. In applying this 5-year rule, you count from January 1 of the year for which your first contribution was made to a Roth IRA. Payments from the Roth IRA that are not qualified distributions will be taxed to the extent of earnings after the rollover, including the 10% additional income tax on early distributions (unless an exception applies). You do not have to take required minimum distributions from a Roth IRA during your lifetime.

For more information, see IRS Publication 590-A, Contributions to Individual Retirement Arrangements (IRAs), and IRS Publication 590-B, Distributions from Individual Retirement Arrangements (IRAs).

If you do a rollover to a designated Roth account in the Plan

You cannot roll over a payment from the Plan that is not from a designated Roth account to a designated Roth account in another employer plan. However, you can roll the distribution over into a designated Roth account in the distributing Plan. If you roll over a payment from the Plan to a designated Roth account in the Plan, the amount of the payment rolled over (reduced by any after-tax amounts directly rolled over) will be taxed. In general, the 10% additional income tax on early distributions will not apply. However, if you take the amount rolled over out of the designated Roth account within the 5-year period that begins on January 1 of the year of the rollover, the 10% additional income tax will apply (unless an exception applies).

If you roll over the payment to a designated Roth account in the Plan, later payments from the designated Roth account that are qualified distributions will not be taxed (including earnings after the rollover). Your plan may provide for a special withdrawal option which is only available if you are electing an in-plan Roth conversion, in which case the other rollover information in this notice is not applicable to that withdrawal.

If you are not a plan participant

Payments after death of the participant. If you receive a distribution after the participant's death that you do not roll over, the distribution will generally be taxed in the same manner described elsewhere in this notice. However, whether the payment is a qualified distribution generally depends on when the participant first made a contribution to the designated Roth account in the Plan. Also, the 10% additional income tax on early distributions and the special rules for public safety officers do not apply, and the special rule described under the section "If you receive a nonqualified distribution and you were born on or before January 1, 1936" applies only if the participant was born on or before January 1, 1936.

- **If you are a surviving spouse.** If you receive a payment from the Plan as the surviving spouse of a deceased participant, you have the same rollover options that the participant would have had, as described elsewhere in this notice.

EnvoyFinancial.com · (888)879-1376 · 5333 N Union Blvd, Ste 200, Colorado Springs, CO 80918

Not a Designated Roth Account:

If you choose to do a rollover to an IRA, you may treat the IRA as your own or as an inherited IRA.

An IRA you treat as your own is treated like any other IRA of yours, so that payments made to you before you are age 59½ will be subject to the 10% additional income tax on early distributions (unless an exception applies) and required minimum distributions from your IRA do not have to start until after you are age 70½ (if you were born before July 1, 1949), age 72 (if you were born after June 30, 1949), or after age 73 (if you were born on or after January 1, 1950). If you treat the IRA as an inherited IRA, payments from the IRA will not be subject to the 10% additional income tax on early distributions. However, if the participant had started taking required minimum distributions, you will have to receive required minimum distributions from the inherited IRA. If the participant had not started taking required minimum distributions from the Plan, you will not have to start receiving required minimum distributions from the inherited IRA until the year the participant would have attained age 70½ (if the participant was born before July 1, 1949), age 72 (if the participant was born after June 30, 1949), or the later of the year that the participant would have attained age 73 (if the participant was born on or after January 1, 1950), or the year that you attain age 73 (if you attained age 72 on or after January 1, 2023).

Designated Roth Account:

If you choose to do a rollover to a Roth IRA, you may treat the Roth IRA as your own or as an inherited Roth IRA. A Roth IRA you treat as your own is treated like any other Roth IRA of yours, so that you will not have to receive any required minimum distributions during your lifetime and earnings paid to you in a nonqualified distribution before you are age 59½ will be subject to the 10% additional income tax on early distributions (unless an exception applies).

If you treat the Roth IRA as an inherited Roth IRA, payments from the Roth IRA will not be subject to the 10% additional income tax on early distributions. An inherited Roth IRA is subject to required minimum distributions. If the participant had started taking required minimum distributions from the Plan, you will have to receive required minimum distributions from the inherited Roth IRA. If the participant had not started taking required minimum distributions, you will not have to start receiving required minimum distributions from the inherited Roth IRA until the year the participant would have attained age 70½ (if the participant was born before July 1, 1949), age 72 (if the participant was born after June 30, 1949), or the later of the year that the participant would have attained age 73 (if the participant was born on or after January 1, 1950), or the year that you attain age 73 (if you attained age 72 on or after January 1, 2023).

- **If you are a surviving beneficiary other than a spouse.** If you receive a payment from the Plan because of the participant's death and you are a designated beneficiary other than a surviving spouse, the only rollover option you have is to do a direct rollover to an inherited IRA or, if the payment is from a designated Roth account, a direct rollover to an inherited Roth IRA. Payments from the inherited IRA, or from the inherited Roth IRA (even if made in a nonqualified distribution) will not be subject to the 10% additional income tax on early distributions. You will have to receive required minimum distributions from the inherited IRA and/or Roth IRA.
- **Payments under a QDRO.** If you are the spouse or former spouse of the participant who receives a payment from the Plan under a QDRO, you generally have the same options and the same tax treatment that the participant would have (for example, you may roll over the payment to your own IRA, Roth IRA or an eligible employer plan that will accept it). However, payments under the QDRO will not be subject to the 10% additional income tax on early distributions.

If you are a nonresident alien

If you are a nonresident alien and you do not do a direct rollover to a U.S. IRA or U.S. employer plan, instead of withholding 20%, the Plan is generally required to withhold 30% of the payment for federal income taxes. If the amount withheld exceeds the amount of tax you owe (as may happen if you do a 60-day rollover), you may request an income tax refund by filing Form 1040NR and attaching your Form 1042-S. See Form W-8BEN for claiming that you are entitled to a reduced rate of withholding under an income tax treaty. For more information, see also IRS Publication 519, *U.S. Tax Guide for Aliens*, and IRS Publication 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*.

EnvoyFinancial.com · (888)879-1376 · 5333 N Union Blvd, Ste 200, Colorado Springs, CO 80918

Other special rules

If a payment is one in a series of payments for less than 10 years, your choice whether to do a direct rollover will apply to all later payments in the series (unless you make a different choice for later payments).

If your payments for the year are less than \$200 (payments from designated Roth accounts and from accounts that are not designated Roth accounts are not aggregated for purposes of the \$200 limit), the Plan is not required to allow you to do a direct rollover and is not required to withhold federal income taxes. However, you may do a 60-day rollover.

Under the instructions of the plan administrator, an account balance greater than \$1,000 and less than or equal to \$7,000 (or other limit as defined by the plan) belonging to a terminated or retired participant may be rolled over directly to an IRA (or Roth IRA if the balance is from a Designated Roth Account) with an IRA provider chosen by Envoy unless the participant directs otherwise.

You may have special rollover rights if you recently served in the U.S. Armed Forces. For more information, see IRS Publication 3, *Armed Forces' Tax Guide*. You may also have special rollover rights if you were affected by federally declared disaster (or similar event), or if you received a distribution on account of disaster. For more information, see the IRS website at irs.gov.

FOR MORE INFORMATION

You may wish to consult with the Plan Administrator, Envoy Financial, or a professional tax advisor, before taking a payment from the Plan. Also, you can find more detailed information on the federal tax treatment of payments from employer plans in: IRS Publication 575, *Pension and Annuity Income*; IRS Publication 590-A, *Contributions to Individual Retirement*

Arrangements (IRAs); Publication 590-B, *Distributions from Individual Retirement Arrangements (IRAs)*; and IRS Publication 571, *Tax-Sheltered Annuity Plans (403(b) Plans)*. These publications are available from a local IRS office, on the web at www.irs.gov, or by calling 1-800-TAX-FORM.
